Living Well Starts Here

Your well-being should always be a priority. But between work, relationships, home life and managing finances, it can be easy to get caught up in the responsibilities of everyday life and put your health goals to the side.

It's time to move your health to the top of the list, and that starts with getting a Health Screening.

All it takes is a few minutes to complete, and the results will give you a thorough understanding of any potential risks that could become big problems. LII makes it easy with three convenient screening options!

Covered employees and spouses must complete a Health Screening to avoid the surcharge in 2024.
