

**Ask your doctor –
Save money by using
LabCorp, an
in-network lab**

The next time your doctor orders laboratory (lab) tests, ask him or her to make sure the lab is in your plan's network.

Just like using a network doctor, using a network lab can save you money. Which is why we want to confirm that **LabCorp®** is a contracted network provider available in your service area.

**Two simple ways to stay
on top of lab expenses:**

- 1** Talk to your doctor when any test is ordered.
- 2** Ask for verification that a network lab is being used.

Take an active role in your health care – and costs – by using only labs that participate in your network.

For a current listing of network laboratories in your area, go to **LIIQuantum.com** or call the number on your health plan ID card.
