

Lighting the Path to the Best Surgical Care

Lantern is here to help you find the best care—and save money* along the way. Here’s the best part: Lantern is already included as part of your benefits through Lennox International.

If you need a planned, non-emergency surgery, call us. Your dedicated Lantern Care Advocate will match you with surgeons in our Network of Excellence.

Effective, 1/1/2025, any member needing a Spine or Joint procedure is required to consult with Lantern before scheduling their surgery; otherwise, your surgery may not be covered.

When you need to plan a surgery, make Lantern your first call:

(833) 834-0052

In the event of a medical emergency, call 911 or visit your nearest emergency room.

*Actual savings can vary based on your employer’s coverage, your medical plan, and the procedure you need. Call us to learn about your specific plan. Your employer has partnered with Lantern to bring you this benefit. You may receive occasional benefit reminders and offerings from Lantern.
