

Standing up to cancer takes a village. Welcome to the village.

When facing cancer, getting the correct diagnosis and access to all the latest research is critical to achieving the best possible outcome. That's where Carrum Health can help.

If you or one of your dependents is diagnosed with cancer, or if test results suggest that you may have cancer, Carrum Health can connect you with the top cancer specialists in the country, who will provide a second opinion on your cancer diagnosis or treatment plan—at no cost to you.

And should you or your eligible dependent need breast, thyroid, or late stage blood cancer treatment, most, if not all, chemotherapy and radiation cost may be covered.*

Welcome to the village. Welcome to Carrum Health.

Your Carrum Health Benefit also includes:

- A Carrum Care Navigator, to help guide you throughout your journey.
- Two years of comprehensive cancer support and care coordination.
- Access to a team of oncology-certified nurses who can answer cancer-related questions.
- Potentially zero out-of-pocket costs* for various procedures and care, including cancer care guidance and treatment.
